EXAM TASK

3 Przeczytaj opisy trzech miejsc popularyzujących naukę i technikę (A–C) oraz pytania ich dotyczące (3.1–3.4). Do każdego pytania dopasuj właściwą propozycję. Wpisz rozwiązania do tabeli. Uwaga! Jedna z propozycji pasuje do dwóch pytań.

A Come and visit our new educational centre. You will learn about natural science through interactive exhibits. For example, you can take a ride on the buses, trains or planes of the future. We also organise science picnics and shows about physics, chemistry, astronomy and mathematics, during which you can observe scientific experiments. We also have a special playroom for younger visitors.

B Our museum of transport and technology is full of vintage vehicles that were used both for private and public transport. You can get on a bus or a train from the 19th century to see what they looked like close up. You can also drive a virtual bus online, or even design a transport system for your city or town on our computers. Come and see how transport has changed over the ages.

C If you're bored with your school science lessons, bring your teacher and classmates to our *Live Science* workshops. The workshops are open to students of any age, and last 90 minutes each. You can learn the laws of physics by building your own vehicle or robot to see if they will actually work or you can mix different chemical elements in our lab in order to see what happens!

Which offer is best for a teenager who:

3.1 is interested in the history of transport?	
3.2 is interested in planets and stars?	
3.3 would like to do chemical experiments?	
3.4 wants to take a younger brother or sister with them?
